

Align Technology, Inc. – (Invisalign) is a global medical-device company that pioneered invisible-orthodontics market with introduction of Invisalign system - a clear, removable orthodontic-treatment option for straightening teeth. Invisalign clear aligners are manufactured in “USA”

Invisalign® is an ultramodern product that has treated 3 million customers worldwide.

Invisalign is the most advanced clear alternative to metal braces :

- Adults and teens now have a modern choice for straightening their teeth
- Almost Invisible
- Removable
- Uses a series of aligners that gradually move teeth over time.
- Does not have food restrictions.
- Maintain healthy dental brushing habits.
- Get teeth straightened without people knowing you are undergoing treatment.
